little or no sponsorship from unascended beings, these great impersonal Lords must, perforce, refuse His request. Many petitions are presented at these Great Council Meetings which would improve the conditions of the race, but due to lack of interest on the part of humanity, they must be set aside until such time as the majority of the people of Earth sincerely desire that those qualities and conditions asked for by the small minority and invisible Sponsors of the race, be granted.

The chelas may sponsor several Masters' Services, and when the Call for Light is made, they may join other groups and add theirs to the Flash of Light which is the Judgment of His Plan. Thus is decided the fate of our nation and of all peoples.

As We approach another of these Great Council Meetings, I would urge that each earnest student make a heart call to the Christ Self of every member of the race, discarnate as well as incarnate, to be present, bringing the etheric bodies of their lifestreams with them that they might observe, firsthand, the efforts being made by the Guardians of the race for their redemption and Ascension. This should have a salutary effect on the outer personality because the conviction of the Divine Plan, charged into the inner bodies through the attendance at these impressive ceremonies, cannot fail to reach the intellect and awaken it to its responsibilities, not only to the Life that beats its own heart, but to all life in general.

Beloved Children of Life and Light:

This morning, I bow again before the exquisite stream of electronic Light flowing so constantly, so joyously, and so happily from the Heart of the Great Sun itself into and through your human forms, and containing, within itself, all the potent powers which man has called mastery over circumstances.

Looking at the form and essence of this pure Light as it flows to the individual, which appears like billions of beads of Light strung together, making a river of electronic substance, it becomes My Heart Desire, as well as that of all Those who witness the entrance of the God-Light into the body, that We might convey to you the comfort and the knowledge and power that lies within your own Light to fulfill all your needs, and yet this great river of force flows through you, for the most part, unclaimed, filling the aura of each day with nothingness.

The great world of science has said that if they could build machines powerful enough to crush the atom, that from the energy released, one tiny molecule would be enough to carry a great ocean liner across the sea, and yet, in the course of a second, each one receives into his own heart (unrecognized) many countless billions of these atoms that pass out into the universe, unused, because man has not learned the power that lies within his own lifestream - just like an orange

that lies upon the table untouched, or a nut from which the kernel has not been extracted. One could sit for days with both these articles of food within reach without enjoying the succulence of the one or the nourishment that lies within the other, unless an effort was made to unclothe the garment in which their essence was enveloped.

It is the same with your precious Light. At the moment that you are born into this world, your own Christ Self agrees to accept the prana, or substance of the air, and becomes responsible for as much of that commodity as you will use in the course of a lifetime. Also, from the time you breathe your first breath, the powers and beings of the air become your servants; the Beings concerned with the sustenance of the Earth supply you with food and nourishment for your body; the shining sun helps you to perform the acts of your daily living; and the elements of the water supply you with your ablutions as well as giving the necessary refreshment to your inner bodies. All of these elemental beings bow the knee before the Throne of the One from which all have come, and Who breathes the first breath into the nostril of the new-born and sets the akashic ethers into motion. Do you think that it is for naught that, age after age, and aeon after aeon, mankind has been so served, and yet has not signified his willingness to accept the responsibility of using these powers of Nature without, in some manner, contributing, even impersonally, to the progress of the planet and the race?

At the close of your Earth life, My beloved ones, it is I who takes the last breath from your nostril as your soul signifies that you have abode long enough in this 'vale of tears', and

that it desires a surcease from the karma of your own making that you may receive Light from the Suns of Heaven and prepare to return again to fulfill your Divine Plan. I have met you there hundreds and hundreds of times, your soul clutching in its tired hands the sheaves of its own harvest, pitifully small for the most part, and even I, whose energy has sustained your Earth journey, must repress a feeling of discouragement (if such a Quality could be expressed in Our Realm) to see a soul so distressed. So this morning I again endeavor to turn your attention to the power that lies within your electronic stream of Light which is your heart-beat.

You do not have to look without - to any person - for within that heart-beat is your precipitating power by which I Myself have manifested the glory of each succeeding day.

In the heart of the Retreats, when We emphasize the philosophy 'Know Thyself', it does not mean that you have to delve into the various doctrines of the day which only result in the manufacture of sheath after sheath with which people have clothed the outer self in this octave, but We do mean that you become acquainted with that exquisite stream of Life and Light through which you attain your mastery.

Blessings and Love,

MAHA CHOHAN
